What about Colours ?

# Coyote

Prankster, insight, playful. The coyote symbolizes duality and the ability to present both sides of an issue. Clowning and humour, perhaps sarcastic.

## CROW or RAVEN

In the Qur'an a raven is in the story of Adam's children

## RAVEN

Trickster, teacher, hoarder, healing, initiation, protection, shaman's power, transformation, change in consciousness, mark of a shape shifter.

the year 1999?

This means you are a RABBIT!

Rabbits are extremely popular and have a wide circle of friends.

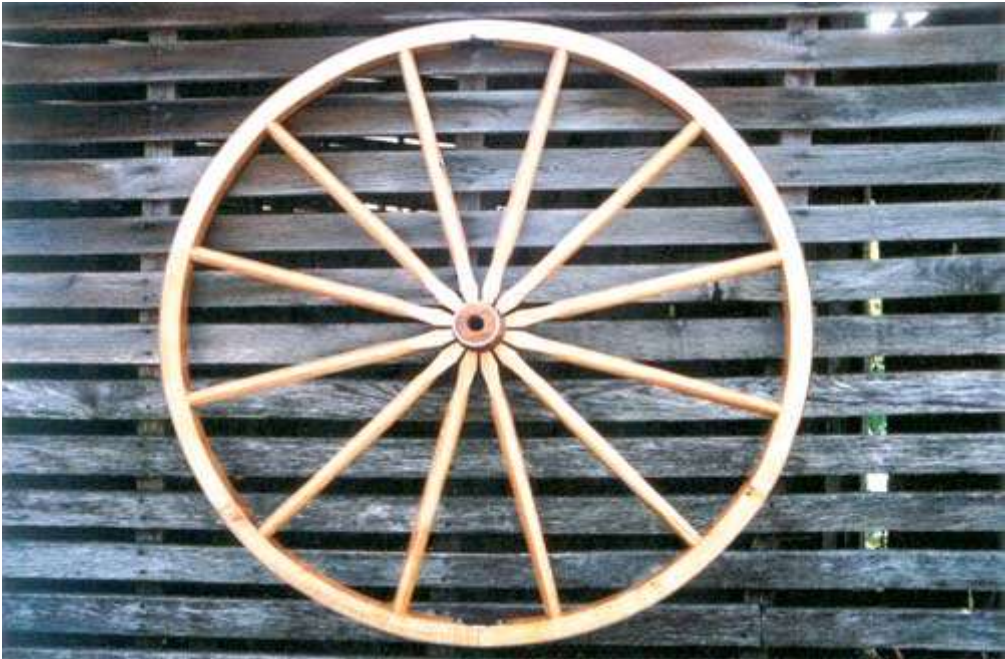

They dislike conflict, but that does not make them a push-over.

Rabbits love to entertain and are extremely protective of their friends.

# You are a DRAGON!

- The Dragon is one of the most powerful and lucky Signs of the Chinese Zodiac
- You are giving, intelligent and tenacious you know exactly what you want and are determined to get it!
- Dragons desire POWER!

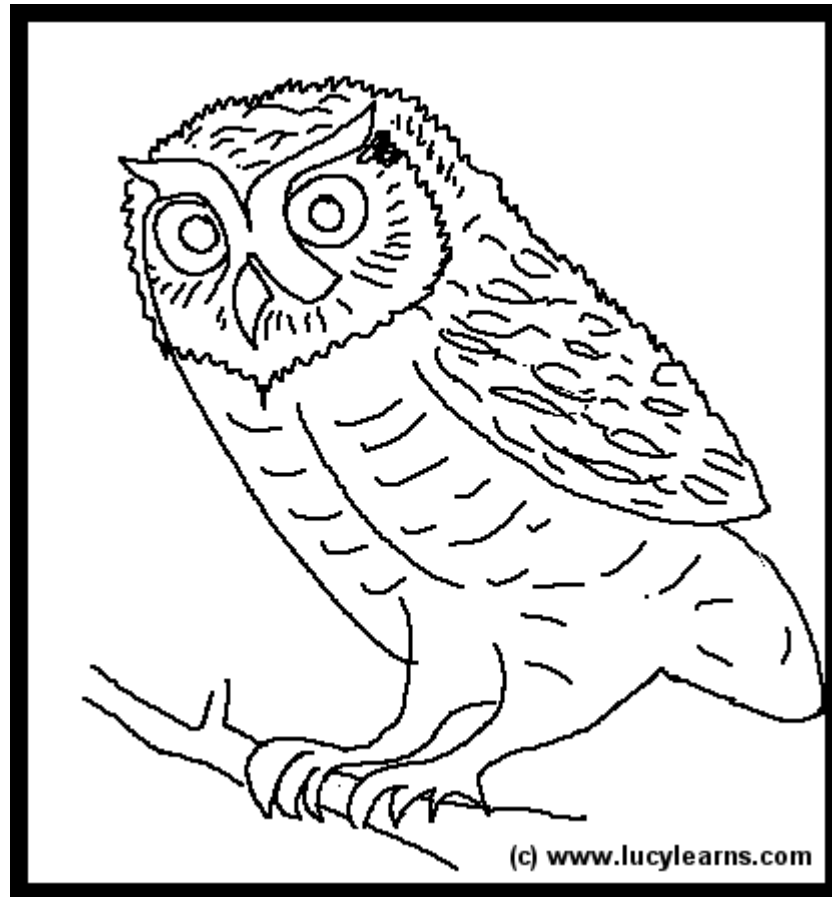

## Wheel of Life

In the Tibetan Buddhist world view, the six realms of existence (Gods, demigods, humans, animals, hungry ghosts, and hell-beings) are all held in the grasp of the Lord of Death.

In the center of the wheel are the three root poisons of desire, hatred, and ignorance symbolized by the rooster, snake, and pig, and on the outer rim are the twelve links of dependent origination by which all causes and effects are determined.

The ultimate goal, shown by the monks in the left inner circle and the Buddha in the upper right, is to follow a path that frees one from these cycles.
